### Am Em G FM7 Repeat

I just woke up from a fuzzy dream  
 You never would believe the things that I have seen  
 I looked in the mirror and I saw your face  
 You looked right through me, you were miles away

All my dreams, they fade away  
 I'll never be the same  
 If you could see me the way you see yourself  
 I can't pretend to be someone else

Always love me more, miles away  
 I hear it in your voice, miles away  
 You're not afraid to tell me, miles away  
 I guess we're at our best, miles away  
 So far away, so far away, so far away, so far away  
 So far away, so far away, so far away, so far away

When noone is around then I have you here  
 I begin to see the picture, it becomes so clear  
 You always have the biggest heart  
 When we're 6.000 miles apart

Too much of no sound  
 Uncomfortable silence can be so loud  
 Those three words are never enough  
 When it's long distance love

Always love me more, miles away  
 I hear it in your voice, miles away  
 You're not afraid to tell me, miles away  
 I guess we're at our best, miles away  
 So far away, so far away, so far away, so far away  
 So far away, so far away, so far away, so far away

I'm alright  
 Don't be sorry, but it's true  
 When I'm gone, you realize  
 That I'm the best thing that happened to you

You always love me more, miles away  
 I hear it in your voice, miles away  
 You're not afraid to tell me, miles away  
 I guess we're at our best, miles away

You always love me more, miles away  
 I hear it in your voice, miles away  
 You're not afraid to tell me, miles away

I guess we're at our best, miles away  
So far away, so far away, so far away, so far away  
So far away, so far away, so far away, so far away

So far away, so far away, so far away, so far away  
So far away, so far away, so far away, so far away  
So far away, so far away, so far away, so far away
